The Avaya B100 Series Conference Phones offer sophisticated and easy to use communication solutions for small to large companies. Providing superior voice quality with the award winning Omnisound® audio technology, the B100 Series Conference Phones cost effectively offer a variety of low bandwidth, plug-and-play deployment options that address different user groups within your organization; the unique needs of small business executives, managers and staff are each supported with a broad choice of models.

With a sleek appearance and suite of smart productivity features, the B100 Series Conference Phones are an ideal choice for companies adding endpoints to their existing infrastructure or deploying a new network. These conference phones can be used for scheduled meetings and training sessions or for impromptu calls between globally dispersed offices and remote workers.

Crystal Clear Sound

Omnisound® audio technology provides clear transmission during meetings so you and your team don't miss any part of the discussion. Full duplex transmits and receives sound simultaneously to prevent audio clipping; 360° surround sound as well as powerful speakers optimize audio pick-up and broadcasting. Noise suppression filters cut static background noise and an equalizer lets you adjust pitch to suit your preference.

With a sleek appearance and suite of smart productivity features, the B100 Series Conference Phones are an ideal choice for companies adding endpoints to their existing infrastructure or deploying a new network.

Plug and Play simplicity

Connect the Avaya B149 Conference Phone to an analog telephone line and to a power outlet and you are ready to go! Quick and easy. Also included is a conference guide, perfect for making multi-party calls, and a handy phone book to store your key contacts.

Flexibility and Productivity Enhancing Features

Enhance web conferencing, video and other communications environments. The B149 Conference Phone is a versatile high performer that complements your existing solutions, which can be easily redeployed as your business grows or as needs change.
