DELIVER SUPERIOR OUTCOMES

Power efficient interactions

Features like skills- and rules-based routing help customers get the right answer, from the right person, at the right time. Your customers – and your KPIs – will thank you.

Realize richer insights

Real-time reports are terrific for managing in the moment. Sometimes, though, you need to see trends and patterns over time. Contact Center Pro helps you get there, with more reporting tools, reporting scheduling, and historical reporting.

Intelligently direct inquiries

With the Pro package, you can customize the Interactive Voice Response (IVR) system to streamline the flow of inquiries and deliver faster resolutions.

Engage customers across multiple channels (add-on)

Not all customers pick up the phone. Our email, chat, and SMS channel add-ons let you take the conversation further. Add only the channels you need now and add more later.
